Olivia Schwartz

Lead Software Engineer

703.867.0067· ocmooney@gmail.com · Leesburg, VA ·[LinkedIn](#) · [GitHub](#)

I am a lead software engineer who is excited about creating innovative, user-friendly solutions.

SKILLS

Languages and Frameworks - JavaScript, TypeScript, Node, Express, React, React Native, NextJs, HTML, CSS
Database - PostgreSQL, MongoDB, Mongoose, Sequelize
Other - Restful APIs, Git, Github, AWS, Circle CI, Command Line, AGILE, Figma, Docker

RELEVANT EXPERIENCE

Development Lead | Athstat   **August 2023 - Present**
- Led and mentored a team of five globally-dispersed developers, fostering a collaborative and productive work environment. Empowered team members to achieve their best while adhering to project deadlines.
- Implemented Agile development practices and Scrum methodologies to streamline the development process. Led daily stand-up meetings, sprint planning, and retrospectives, ensuring transparency, adaptability, and timely project deliveries.
- Spearheaded the deployment of one mobile application and one web application within an aggressive three-month timeframe, demonstrating a deep commitment to project goals, time management, and efficient problem-solving.
- Actively participated in leadership calls, providing valuable insights and updates on project progress. Collaborated with cross-functional teams to align development efforts with strategic business objectives.
- Developed and led the testing phase of both applications, overseeing comprehensive quality assurance processes to guarantee the delivery of bug-free and user-friendly products.
- While leading, also continued to work as a full-stack developer on both a web application and a mobile react-native application

Full Stack Software Engineer | Athstat   **January 2023 - Present**
- Responsible for the strategic planning and end-to-end overhaul and delivery of Athstat's front-end, introducing a cutting-edge, responsive web design. Ensured seamless user experiences across various devices, enhancing the platform's accessibility and user engagement.
- Meticulously crafted wireframes for team initiatives established a clear and structured visual blueprint for development. This systematic approach facilitated efficient project execution.
- Developed and led testing of the application, systematically identifying and rectifying potential issues. Analyzed customer feedback and collaborated with cross-functional teams to pinpoint areas for improving application responsiveness and user satisfaction.
- Collaborated closely with a small, agile development team, leveraging Agile methodologies to iteratively meet user needs. This dynamic approach ensured rapid development cycles, flexibility, and adaptability to evolving project requirements.
- Designed and developed a comprehensive first-time user-experience walkthrough tutorial for the application, significantly enhancing the onboarding process.

Software Engineering Fellow | General Assembly   **September 2022 - December 2022**
- Completed 500+ hours of training in full-stack web development and hands-on learning of coding fundamentals
- and the industry's most in-demand technologies such as React, JavaScript, Python, MongoDB, and more.
- Developed several projects, including:
  - **Memory Game | JavaScript, HTML, CSS**
  - **Lupus Link | PERN Full-Stack**

Realtor® | Keller Williams Realty | Pearson Smith Realty   **March 2016 - October 2022**
- Provide unofficial property appraisals using local comparisons to supply and advise sellers with initial market data
- Communicate with sellers and buyers to understand property needs, timelines, and budget earning 74% of business through referrals
- Built and executed a strategic business plan, resulting in at least 10% growth each year
- Launched business to teach other Realtors best practices for running and organizing their own business.

Director Of Operations | Denae Judd Properties   **October 2018 - October 2019**
- Managed and directed a team of 5 Real Estate Agents
- Developed and implemented a business plan that helped grow the team's revenue to $15 million in sales

- Headed day-to-day operations such as financials, HR, business development, marketing, and sustainment of growth

Dermatology Medical Assistant | Total Health & Skin Center| NoVA Dermatology   **April 2013 - October 2015**
- Assisted Physicians and Nurse Practitioners with various medical exams and procedures on average working with 40+ patients daily.
- Helped spearhead and execute a training plan for new Medical Assistants.

EDUCATION
GENERAL ASSEMBLY | REMOTE
Software Engineering Immersive   **September 2022 - December 2022**
Full-stack software engineering immersive student in an intensive, 24-week, 450+ hour program focused on product development fundamentals, object-oriented programming, MVC frameworks, data modeling, and team collaboration strategies. Developed a portfolio of individual and group projects.

N.C. STATE UNIVERSITY | RALEIGH, NC
B.S. in Human Biology
